

Reliance Automation

Innovative Automation Solutions

DESIGN. BUILD. AUTOMATE.

One partner. One seamless solution.

END-TO-END

Turnkey Systems

Concept-to-commissioning automation solutions, from initial scoping through to live production.

CUSTOM BUILT

Bespoke Engineering

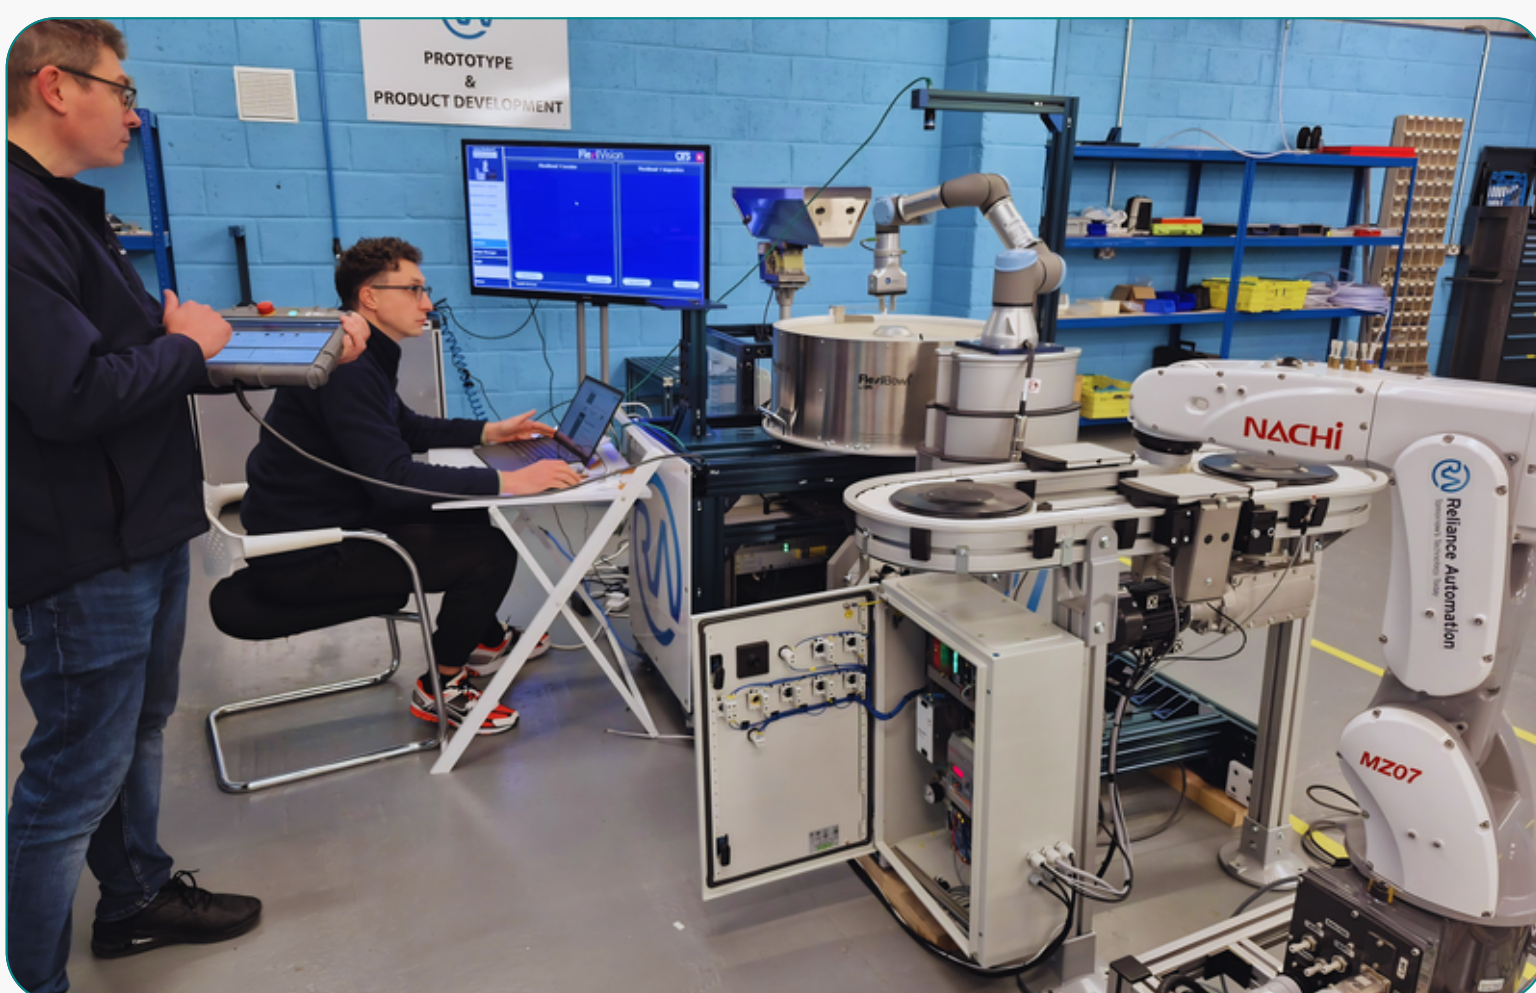

Systems precisely engineered for your unique production processes and operational constraints.

LOW RISK

R&D / Proof of Concept

Prototype and de-risk new automation ideas in our dedicated POC lab before full deployment.

OUR DESIGN & BUILD FACILITY - SIX DISCIPLINES. ONE ROOF.

Our new state-of-the-art design and build facility in Dundalk brings six engineering disciplines under one roof, enabling faster delivery, tighter integration, and complete project ownership from first concept to final commissioning.

Precision Engineering

Cross-functional automation

Assembly

Manufacturing & assembly lines

Packaging

Palletising & end-of-line

POC Lab

Rapid prototyping & R&D

Quality Testing

Inspection & machine vision

Mobile Logistics

Autonomous material movement

BRANDS WE WORK WITH

Reliance Automation

Innovative Automation Solutions

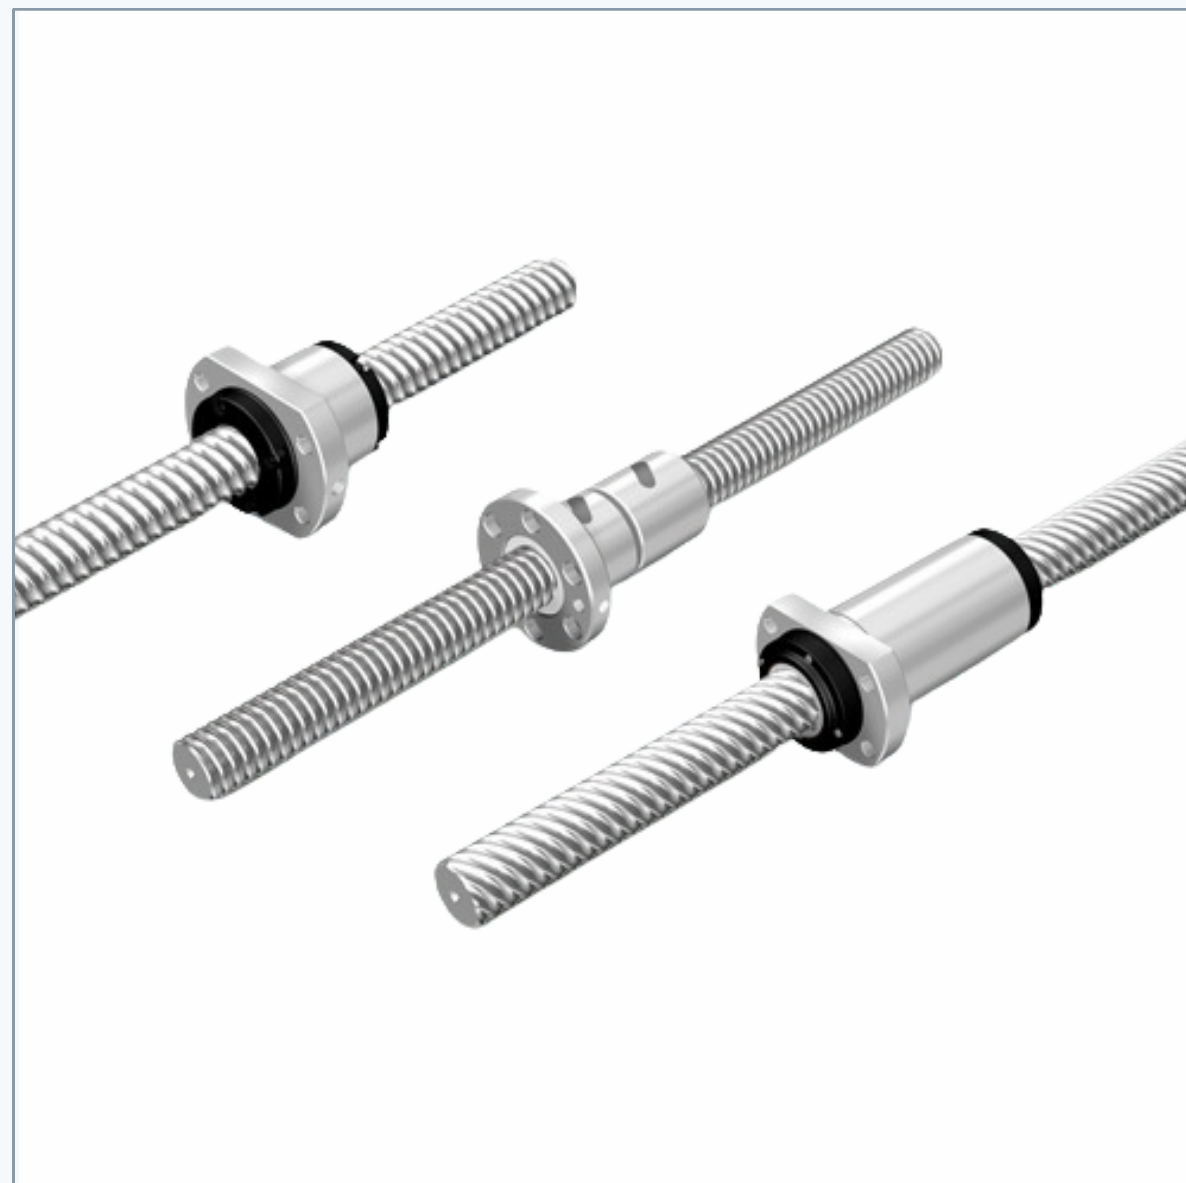

INDUSTRIAL **AUTOMATION** SOLUTIONS

Ireland's Leading Distributor of Industrial Automation Technologies.

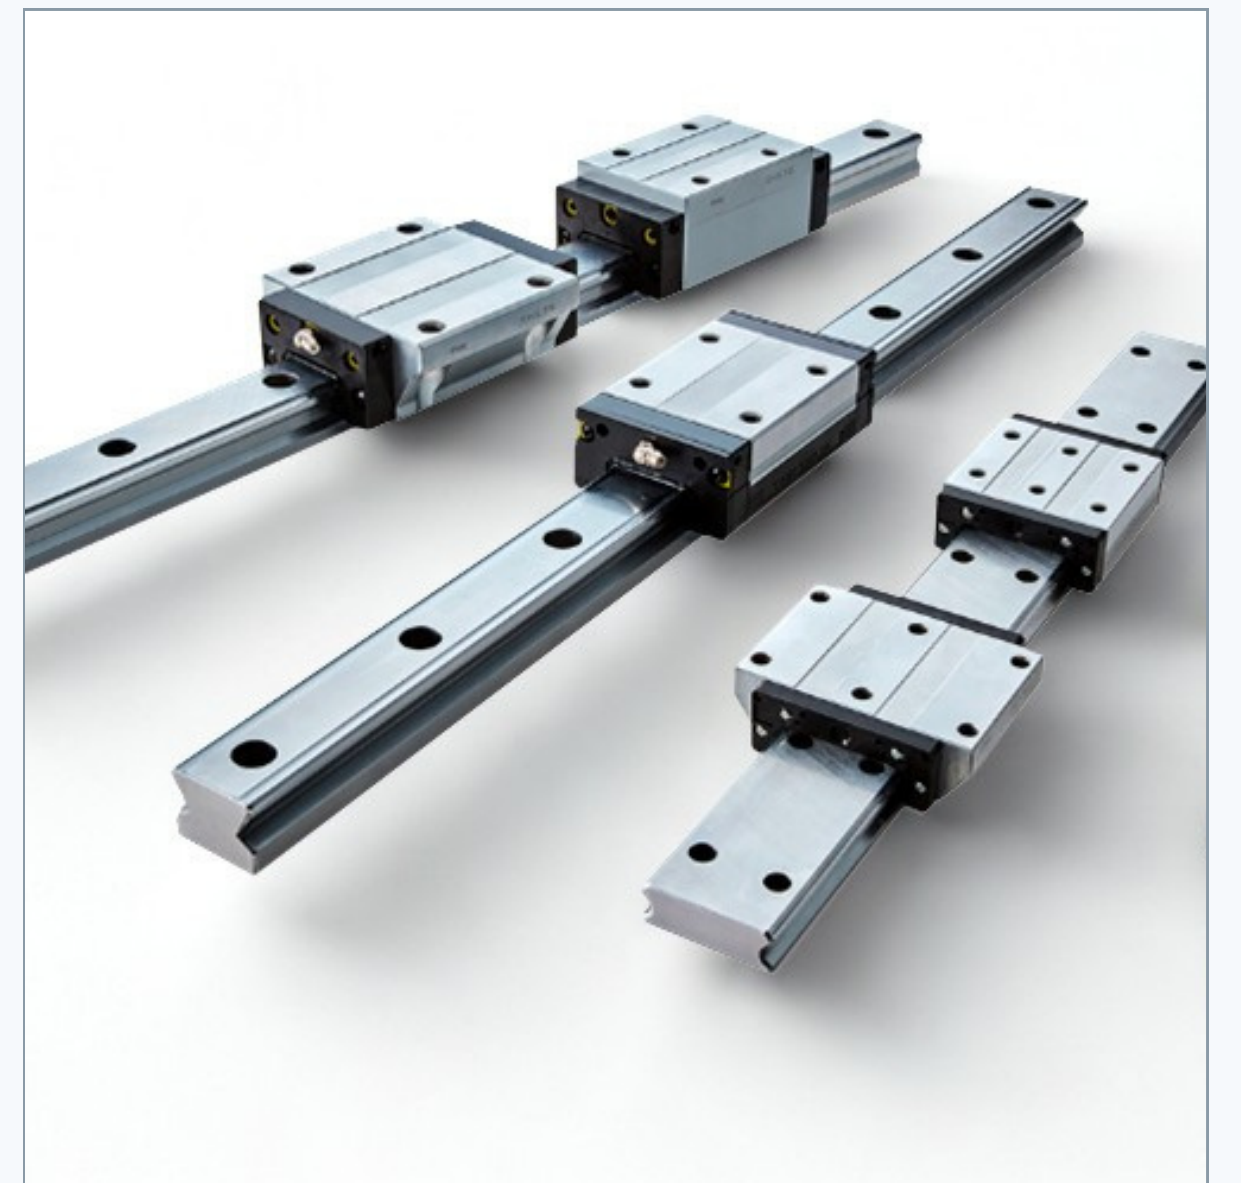

Efficient product movement solutions that optimise workflow and productivity.

Conveyor Systems

Deliver precise linear motion with exceptional accuracy and durability.

Ball Screw

Achieve smooth, accurate movement for demanding automation applications.

Linear Slide Units

Ensure low-friction, high-precision linear guidance for lasting performance.

Ball Bushing & Shafts

Compact, robust, energy efficient
Electric actuators

Actuators

Advanced motor control technologies for precise, efficient machine performance.
